ABOUT

Following the success of the 1st LIFE AMPHICON International Conference held in 2022, the **2nd International Conference** will once again bring together amphibian experts to facilitate high level presentations and discussions, knowledge sharing and collaboration.

During the conference, activities and progress of the LIFE AMPHICON project will be presented, with a special focus on **population reinforcement**, which will also be the main theme of the 2nd International Conference.

Established within the LIFE AMPHICON project, Kozjanski Park became home to Slovenia's first amphibian breeding station and Europe's first breeding station for *Triturus carnifex*.

The conference will be held in-person and will feature **three sessions**:

- **Session 1: CONSERVATION OF AMPHIBIAN SPECIES AND POPULATION REINFORCEMENT**
- **Session 2: AMPHIBIAN HABITAT RESTORATION AND ENHANCEMENT**
- **Session 3: AMPHIBIANS AND ROADS**

REGISTRATION

Registration for the conference is **free of charge**. However, due to the limited availability you need to **register online to ensure your participation**. The registration is based on first come first serve basis. Please fill out the **REGISTRATION FORM** which must be received no later than **October 30, 2024** if you are attending as a **listener**.

POSTER SESSION

A new addition to this conference will be the **POSTER SESSION**. It will be organised during one of the breaks between main presentations on the first day. To participate in the poster session as a presenter, please complete the **registration form** and submit your poster abstracts (max. 250 words including the title and authors together with affiliations of the authors) by **October 15, 2024**.

Presentations will be mainly in English with a possibility of a few presentations in Slovene. More details will be advised at a later stage.
